

Success Stories 2025

Vision Inside – Full view with ChiliDataHub

Marco Rast

CEO Vision Inside AG

Chili Digital provided us with excellent support during the implementation of HubSpot. We were particularly impressed by the implementation of the complex interfaces to our existing systems - a challenge that they mastered with a high level of expertise. Their in-depth know-how and solution-oriented approach convinced us. That is why we continue to rely on their support for further development and support. A clear recommendation!

Implementation

HubSpot configured as a central CRM with 360° customer view.

Integration

ERP Messerli Informatik & Autotask smartly linked with HubSpot - via ChiliDataHub®.

Challenges

The current system landscape (Messerli, Autotask, HubSpot) should enable a complete and up-to-date customer view in HubSpot.

Solution

ChiliDataHub® links HubSpot with ERP Messerli Informatik and Autotask. All relevant data is synchronized - for a holistic view of customers and projects in the two business areas electrical infrastructure and IT.
